

Space Management

In modern times we tend to accumulate more belongings and that's why space management is so important when Future-Proofing your home. You need to decide how you can make the best use of the space available to accommodate the demands of your family's lifestyle, whatever the size and style of your home.

Kitchens and Laundries

Kitchens and laundries are a great starting point when looking for ways to maximise your home's space. Kitchens designed with multi-level drawer organisers, pullout bench space, pullout racking systems and organisers in cupboards and pantries provide optimum storage space.

Maximise laundry space by incorporating stackable washer/dryer units and folding ironing centres. In some homes the entire laundry can be placed in storage cupboards with bi-fold doors to really maximise space. Switching your hot water system to an external unit will also allow an entire cupboard's worth of additional space.

Living Spaces

In living areas, slimline TVs, built-in sound systems and equipment storage cupboards are just a few of the ways you can make better use of your family's space.

You would be surprised how much usable space is taken up by doors and access ways. By investing in bi-fold doors, cavity slider doors that disappear inside the walls, and sectional garage doors, you can have the double benefit of more space and better access. Through well-planned organiser units, shelves or pullout drawers, some of that reclaimed space can be used effectively for storage.

Maximising Storage

Throughout your home there are probably many areas that can be utilised for storage. Building specialists are able to produce specially designed frames and trusses that allow you to create storage cavities in your roof, accessible by attic stairs.

Attic Storage Space

Most homes under utilise the roof cavity as a storage option. Maximise your roof storage space by installing attic stairs and purpose designed attic trusses. FPB attic stairs found in our 'How To' guide will offer you a safe and secure storage option.

Other Recommended Solutions:

- Shelving, storage and organiser systems
- Full access doors and closets
- Land utilisation
- Door placement
- Garage carpet is one of the easiest ways to maximise space for the family in a home. It instantly gives you a rumpus room for wet days, kids and band practice. Plus when well insulated it is durable and warm.
- Wardrobe organisers
- External hot water system (continuous flow, storage or solar)
